

WILDFLOWER TRAIL

SITE INFORMATION FORM

1. What we are doing?

With funding from the National Lottery Covid relief fund, Green Tides are developing a website to promote the enhancement of our local green spaces with wildflowers. It will showcase a trail of sites across the Adur and Worthing area, with the aim to inspire and enable our community to come together and celebrate wildflowers and the pollinators they support.

2. How will this benefit the community & wildlife?

This project will bring several benefits to the local community. By promoting the work being done by groups and individuals in the community, we can encourage spending more time outdoors, getting active and reconnecting with the natural world. This can have positive impacts on physical and mental wellbeing as well as providing opportunities for people to come together and build relationships with one another. By helping people connect over a shared appreciation of wildflowers and nature as a whole, we can strengthen our community whilst also having a positive impact on our local environment: planting and maintaining areas of wildflowers can provide a rich source of forage and habitats for a wide variety of insects, many of which are important pollinators.

3. How can you help?

By filling out the form attached with some key information about your site we can use this to populate our website and map with active wildflower sites that the wider community can visit and read about. By sharing your passion, we hope to inspire others to get involved!

4. Timescales.

We are aiming for a launch of March 2021 for the website and trail map. If you want to list your site, please get your information to us ideally before February 2021.

5. Who to contact.

Please make enquiries and submit your completed form to the following address:

thewildflowertrail@gmail.com

WILDFLOWER TRAIL

SITE INFORMATION FORM

Please take the time to fill in this form, it will help us build up a profile for your site and the community that manages it. Once completed please return to thewildflowertrail@gmail.com

SITE NAME	SITE NAME	
ADDRESS	ADDRESS	POST CODE
GROUP NAME	NAME OF COMMUNITY GROUP/ORGANISATION	
NAMED CONTACT	FIRST NAME	LAST NAME
CONTACT EMAIL	EMAIL ADDRESS	
PLANTING DETAILS Approximate area dedicated to wildflowers (M ²). Seed mixes used. Typical examples of species present. How do you manage your wildflower areas?	Please include details on the area (jn square metres) dedicated to wildflowers, any seed mixes you may have used, examples of typical species present, management style, cutting regimes etc.	
SITE ACCESS Are there any restrictions to the access of your site? Opening hours? Visits by arrangement? Best time of year to see the wildflowers?	Please provide details of any site restrictions or considerations when visiting your site.
